

Oily Skin / Large Pores Consent Form

I, _____, acknowledge by signing this agreement that I have been informed of the nature, risks, and possible complications when applying cosmetic tattoo (microblading) to oily skin or skin with large pores.

- I understand that microblading is a permanent cosmetic procedure.
- I understand the microblading "hairstrokes" may expand from their original size due to oil underneath the skin or large pores.
- I acknowledge that due to the unpredictable nature of oily skin (or skin with large pores) interacting with the healing process it is not reasonably possible for representatives of this establishment, _____, to predict exactly how oily skin may affect the results of microblading.
- I understand that visible results on the day of the appointment will change over time. Changes may include: lightening, darkening, or changing of color, increase in thickness of "hairstrokes, fading of "hairstrokes." I acknowledge these changes may be more drastic due to the unpredictable nature of oily skin or skin with large pores.
- I consent to the application of the cosmetic tattoo regardless of potential complications due to oily skin or skin with large pores.
